Dao Xiong, Multicultural Advisor

Jesús Villaseñor, Multicultural Advisor

The Technical Assistance Alliance for Parent Centers is an innovative project that supports a unified technical assistance system for the purpose of developing, assisting and coordinating Parent Training and Information Projects and Community Parent Resource Centers under the Individuals with Disabilities Education Act (IDEA). This project is funded by the U.S. Department of Education, Office of Special Education Programs and consists of **1 national center** and **6 regional centers**. The project is funded to strengthen the connections to the larger technical assistance network and fortify partnerships between parent centers and state education systems at regional and national levels.

Parent Training and Information Centers (PTIs) and Community Parent Resource Centers (CPRCs) in each state provide training and information to parents of infants, toddlers, children, and youth with disabilities and to professionals who work with children. This assistance helps parents to participate more effectively with professionals in meeting the educational needs of children and youth with disabilities. The Parent Centers work to improve educational outcomes for children and youth with all disabilities (emotional, learning, mental, and physical).

Postsecondary Education Programs Network (PEPNet)

The Postsecondary Education Programs Network, is the national collaboration of the four Regional Postsecondary Education Centers for Individuals who are Deaf and Hard of Hearing. The Centers are supported by contracts with the U.S. Department of Education, Office of Special Education and Rehabilitative Services. The goal of PEPNet is to assist postsecondary institutions across the nation to attract and effectively serve individuals who are Deaf and Hard of Hearing.
